Approved Landscape Plants for the *Exeter Place* Villas

In an effort to minimize the water burden on our homeowners as well as the Arizona water supplies, we are replanting our small grass areas with Low-Water Desert plants and landscape rocks. The following list has been chosen for water usage, growing habits, low-litter and non-allergenic.

The following plants have been taken from the "Landscape Plants for the Arizona Desert", guide to growing Low-Water-Use plants. Visit www.amwua.org for info.
